

ITS Standard for Desktop Computer

1.0 Purpose

To identify ITS' desktop computer standard.

2.0 Scope

The standards should be applied globally across Johnson County Government.

This is a "living document."

3.0 Responsibility

It is the responsibility of the user to ensure that any proposed desktop device that shall be attached to the network infrastructure be infrastructure compatible.

4.0 Recommended desktop standards

Recommended for most Johnson County employees.

Processor: Minimum of AMD ATHLON™ 64 X2 3800+ (2.00GHz, 512KBx2)

Memory: 1 GB or higher

Video Card: 256 MB memory or higher

Recommended for Johnson County "power user."

Processor: Minimum of Intel® Core™ 2 Duo Processor E6300 (1.86GHz, 2M, 1066MHz FSB)

Memory: 2 GB or higher

Video Card: 256 MB memory or higher
